# Business Administration Assessment

#### **Assessing & Evaluating Your Program Outcomes**

- Assessment of learning outcomes is a key requirement for both institutional accreditation and programmatic certification.
- The challenge is finding the right assessment tool that is flexible, comprehensive, and affordable with an external comparison that corresponds to the program.

#### **Business Administration Assessment**

A customizable, program-level assessment solution with in-depth reporting and data analysis to help satisfy assurance of learning requirements.

# **Key Features**

### The BUS Assessment

- Measures retained student knowledge associated with the program's learning outcomes.
- Designed to address programmatic accreditation requirements related to learning outcomes assessment, quality assurance, and external academic benchmarking.
- Is a normed, summative assessment solution for Business
   Administration (BUS) academic programs used for internal and external programmatic evaluations.

# **The Accreditation Relationship**

The BUS assessment solution addresses programmatic and institutional accreditation requirements related to:

Learning Outcomes | Quality Assurance | Direct Measurement |

**Programmatic Evaluation** 

# **Key Features**

- **1.** Customizable at the topic level.
- 2. Integrate directly into the learning management system (LMS) for seamless delivery to the students and automated gradebook posting.
- **3.** Choose from three test banks: undergraduate, master's, and doctoral.

- 4. Unlimited access to the individual student results and analysis reports.
- 5. Benchmarking of scores with other institutions based on institutional demographics.
- 6. Online assessment with security features and no proctoring requirement.

# 13 Business Administration Topics Each BUS Topic has 4-8 Subjects

- **1.** Accounting
- 2. Business Communications
- **3.** Business Ethics
- **4.** Business Finance
- 5. Business Integration and Strategic Management
- 6. Business Leadership
- 7. Economics (including subtopics in)
  - ♦ Macroeconomics
  - ♦ Microeconomic

- 8. Global Dimensions of Business
- 9. Information Management Systems
- **10.** Legal Environment of Business
- **11.** Management (including subtopics in)
  - ♦ Human Resource Management
  - Operations/Production
     Management
  - ♦ Organizational Behavior
- **12.** Marketing
- **13.** Quantitative Techniques and Statistics

# **Additional Topics**

These topics are often used in conjunction with a core BUS program exam to assess the specialization or concentration.

- **1.** Marketing
- 2. Human Resource Management
- **3.** Real Estate
- 4. Homeland Security
- **5.** Public Administration

- 6. Healthcare Administration
- 7. Accounting and Finance
- 8. Criminal Justice
- 9. Sport Management

#### You can develop additional topics specific to your program.

#### **Customization for Program Alignment**

Program managers select the topics that apply to their specific program(s).

In most situations, an associate level exam will include 4-6 topics, a bachelor level exam will include 10-12 topics, and a graduate-level exam will include 8-10 topics.

Topic selection depends upon the learning outcomes and program curriculum. The exam generates 10 questions per topic.

# **Topic and Subject Levels**

# Business

# Finance

- Asset Valuation and Inventory
- Balance Sheets and Financial Statements
- Business Analysis Ratios and Calculations
- Interest and Dividends
- Profit, Loss, Cash Flow, and Margins
- Stocks and Bonds
- Tax Rates, Taxes, and Tax Code

# The Inbound-Outbound Assessment Approach

- Students complete an inbound exam early in the program and then an outbound exam toward the end of the program. The comparison of inbound and outbound exam scores is the direct measure of learning.
- A detailed analysis of the exam results is used for evaluating learning outcomes. The comparison of the cumulative results with other institutions is used for academic benchmarking.
- If your student body demographics have not changed significantly, inbound and outbound exams can be administered concurrently for statistically valid comparisons.

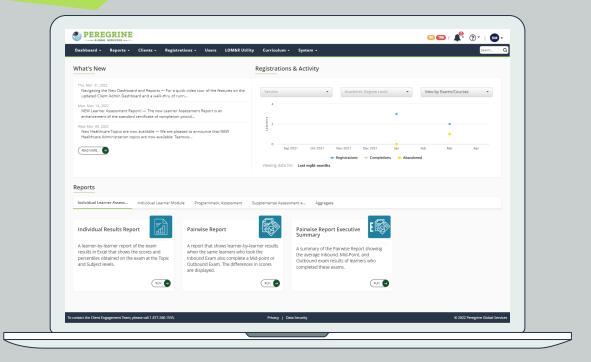

# **Reports and Data**

#### **Client Admin Dashboard**

#### School officials have unlimited access to a Client Admin Dashboard where they can:

- Track student registration and progress
- Generate individual & summative reports
- Manage reports
- Discover Peregrine news and updates

### **Internal Analysis Report**

A report of a selected group of exams with the selection of one aggregate pool at a time with both an analysis of means and an analysis of the frequency correct.

School results are compared at the topic and subject levels based on percent scores and percentile rankings to determine if student performance is below, at, or above desired thresholds established by the school.

# **Longitudinal Report**

The Longitudinal Report is used to analyze 2-4 sets of results over time.

Regression analysis helps school officials understand the effect of changes to the program over time.

### **External Comparison Report**

#### External Comparison Report

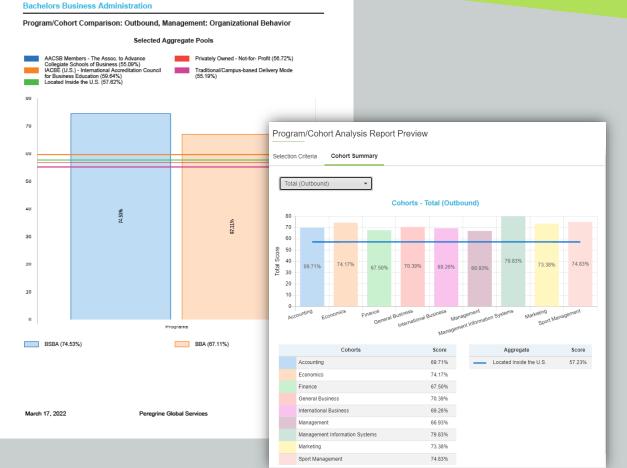

Comparison of Total Score and Topic Scores with Selected Aggregate Pools

A report of a selected group of exams comparing the results against one or more aggregate pools.

Choose from up to 5 different aggregate pools to compare against the school's results for external benchmarking.

#### **Program or Cohort Report**

Program/Cohort Report — Peregrine University

A side-by-side comparison of the results between one or more academic programs or cohorts of students where there is overlap of topics on the student exams.

### **Student Survey Report**

School officials have the option to include a survey with an exam (at no additional cost).

Typically, this is an end-of-program survey, often used as an indirect measure of learning outcomes and student satisfaction. The institution determines the survey questions.

#### **Grade Scale Report**

Once an institution has completed an appropriate number of exams (>50), the school has the option to generate a Grade Scale Report based on the school's results.

This report is used most often for grading the exam.

### **Reliable and Valid**

### **Test Bank Validity and Reliability**

Exam questions are aligned with the knowledge areas and have been validated and peer reviewed.

Regular psychometric analyses of the test banks ensure reliability and accuracy.

Exam difficulty is relative; the exam assesses retained knowledge of the students at the program level using a nationally normed instrument.

# **Incentivizing Your Exam**

- Outbound exams are usually incentivized (graded) to encourage the students to do their best.
- The Learner Assessment Report also incentives learners to give their best effort.
- The report
  - illustrates the "why" of the exam.
  - demonstrates growth in knowledge over time.
  - provides a tool for learner's professional portfolio.

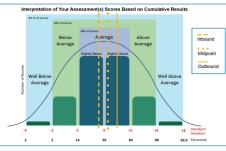

### The Report "Why"

- Communicates the how report data from the  $\blacklozenge$ exam is used to impact quality in education an help them understand their scores.
- **Provides an explanation of scores including**  $\blacklozenge$ definitions and charts to explain percentile ranking.

#### **Explanation of Scores**

The graph below will help you understand how your score(s) relates to the average scores achieved on the exam. For example, your total exam score of 65.8% corresponds to a percentile rank of 75, as illustrated in the following graph. You can also apply this relationship to your topic and subject level. The key within the graph represents three different points at which you may have taken the exam. Inbound refers to an exam taken at the beginning of an academic program, Midpoint is an exam taken during the middle of an academic program. Outbound is an exam taken at the end of the program

Percentiles should not be confused with percentages. For example, a learner taking a difficult exam might earn a score of 75%. This means that they correctly answered every three bove Average [%] - [%] out of four questions. [%] - [%] A learner who scores in the 75th percentile however, has obtained a different result. This [%] - [%] Slightly Bel verage percentile means that the learner earned a highe [%] - [%] score than 75% of all other learners in the sample who took the exam. In other words, the percentage score reflects how well the learner did on the exam itself; the percentile rank reflects how well the

#### **Your Scores**

Your scores on the [exam name] are relative, meaning they must be understood in relation to all learner scores. Scores obtained on the exam do not correspond directly to a traditional 100-point grading scale commonly used in education.

The percentages and percentiles displayed here do not necessarily represent the grade you will or will not receive on this exam. Check with your instructor regarding grading. Please see the page titled "Explanation of Socres" for an more in-depth understanding of what your score means as it relates to your level of integrated knowledge in the assessed topics.

### **Exam Topics**

- The learners will see a comprehensive view of the topics that make up their exam.
- Each topic will show the # of correct responses, percentile rank, and sample size.
- Additionally, learners will see "tips" for understanding the Exam Topic table.

#### Tips to Understanding the Exam Topics table:

1) A # of Correct Responses of 8/10 means that 8 questions out of 10 were answered correctly

2) A Score of 80% is based on 8 questions answered correctly divided by the total questions offered of 10.

3) A Percentile Rank of 75th means that you earned a higher score than 75% of the other learners in the sample.

4) The Sample Size is the number of learners who received that topic and upon which the Percentile Rank is calculated. For example, a percentile rank of 75th means that you scored at or higher than 75% of all learners who took this same exam.

### **Topic Results by Rank**

### **Topic Results by Rank**

The following topics are shown in order from highest to lowest percentile rank. You can use this information to help identify those topics where you have greater knowledge and potential knowledge gaps. Average score is based on all learners in the sample who received the topic on their exam.

- Learners will see the percentage change between Inbound and Outbound Score.

## **Learning Opportunities**

- The learner receives a response distractor report.
- The report helps learners understand the reason they may have answered the question incorrectly.
- Based on the answer given, the error may have been calculation-based, concept-based, conclusion-based, fact-based, or interpretationbased.

John Smith | Business Administration Outbound, 08 January 2022 | Learner Assessment Report

#### **Learning Opportunities**

Each question on your exam that was answered incorrectly was identified with one of five reasons or types of errors that can be made. We call these types of errors "Response Distractors", and they include Fact, Concept, Conclusion, Interpretation, and Calculation-based errors. Below is a table listing the topics you received on your exam in order by Percentile Rank from highest to lowest. In the columns to the right of each topic are the number of each type of error you selected.

The values are color-coded to help you identify potential gaps: Green = 0-1 errors; Yellow = 2-4 errors; and Red = 5 or more errors.

				Response Distractors				
Торіс	Percentile Rank	Num Offered	Correct	Calculation- based Errors	Concept- based Errors	Conclusion- based Errors	Fact- based Errors	Interpretation based Error:
Business Ethics	60 <sup>h</sup>	10	5	1	1	1	1	1
Business Finance	58 <sup>se</sup>	10	7	2	3	0	1	1
Accounting	56 <sup>th</sup>	10	8	1	0	0	1	0
Economics	54%	10	8	1	2	2	2	3
Macroeconomics	52 <sup>th</sup>	5	4	0	0	0	3	0
Microeconomics	50 <sup>th</sup>	5	4	1	3	1	1	0
Business Integration & Strategic Management	48 <sup>n</sup>	10	9	2	5	0	2	1
Information Management Systems	46 <sup>th</sup>	10	9	0	1	0	1	0
Global Dimensions of Business	45 <sup>n</sup>	10	10	0	5	0	0	٥
Legal Environment of Business	44 <sup>n</sup>	10	10	0	3	0	0	0
Marketing	43 <sup>n</sup>	10	10	0	4	0	0	0
Business Leadership	42 <sup>n</sup>	10	10	0	1	0	0	0
Totals			86		28			

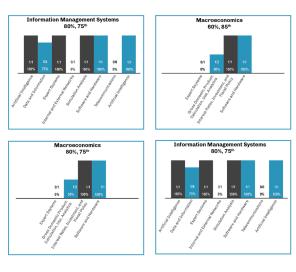

Using the table above, you can identify the types of errors you made the most on your exam. If, for example, you made a high number of calculation-based errors, you might consider reviewing the formulas and equations needed to solve problems in that area. Or, if you had a high number of concept-based errors, you might review that area to improve your understanding of the concepts.

### **Exam Subjects**

John Smith | Business Administration Outbound, 08 January 2022 | Learner Assessment Report

### **Exam Subjects**

Each topic is comprised of subjects covering specific knowledge areas. The Exam Subjects section allows you to look more closely at the areas of knowledge you are proficient in, and help you identify potential knowledge gaps. The following graphs show your score by topic and subject, and the number of questions answered correctly in each. For example, an 8/10 indicates you answered 8 out of 10 questions correct.

- Learners will receive a view of how they performed at the subject level.
- Each subject is represented by a bar within a topic specific graph.
- Learners will see also see their score and percentile rank in the topic and can relate that back to performance in each subject.

### **Next Steps**

- The final page of the report provides learners with next steps depending on the type of exam the report is generated from (Inbound, Mid-Point, Outbound).
- For the Outbound, learners are encouraged to use the report as part of a portfolio for prospective employers or to guide professional development.

John Smith | Business Administration Outbound, 08 January 2022 | Learner Assessment Report

#### Next Steps

Now that you understand your scores and percentile rank, and you have identified your strengths and learning opportunities, what's next?

If this assessment report was for an Inbound Exam, you now know your starting point. You can expect to improve in all topic areas as you progress through your academic program. Areas where you identified knowledge gaps are those where additional study may be required with the use of materials, tutorial support, and other resources. If your school administers a Mid-Point Exam in the middle of your program and/or an Outbound Exam before graduation, you will be able to directly measure your growth in learning from your starting point.

If this assessment report was for a Mid-Point Exam, you will be able to directly measure your growth in learning since taking the inbound Exam. You will also identify areas where you can improve and focus your efforts during the second half of your academic program.

If this assessment report was for an Outbound Exam, you now have a report that demonstrates what you know at the conclusion of your academic program. This report can be used as a part of your portfolio for prospective employers, as part of your academic record for future degree plans in higher education, and as a guide for your professional development.
