Career Readiness

Career readiness is the process of preparing learners of any age with the essential skills they will need to find, acquire, maintain, and grow within a job. Career readiness concerns just about any area associated with someone entering the job market.

Career readiness encompasses everything that a learner needs to know to launch a successful occupational life, along with all the accomplishments, pride, stability, and progression that entails. Sometimes that refers to soft skills. Other times, it means learning a hard-and-fast way to perform a certain process. At the end of the day, career readiness promises exactly what is in its name.

The purpose of this module is to develop the learner's understandings, knowledge, actions, and skills for career readiness.
