Peregrine Global Solutions provides normed, summative assessment solution for Early Childhood Education (ECE) academic programs used for internal and external programmatic evaluations.

## Early Childhood Education

### Academic Programmatic Assessment

Peregrine Academic Services provides nationally normed, summative assessment services for Early Childhood Education academic programs that are used for internal and external programmatic evaluation. The customizable exams are delivered online and can be effectively integrated into any undergraduate or graduate program to comprehensively evaluate retained student knowledge associated with the academic degree program's learning outcomes.

Our Early Childhood Education assessment is designed to help institutions satisfy CAEP and NAEYC accreditation requirements related to program evaluation, learning outcomes measurement, and quality assurance by aligning with the regulatory standards, and principles outlined by these accrediting bodies.

#### Structure

It is a fully online assessment with a unique design that allows for non-proctored administration to both on-campus and remote students in a secure test environment.

#### Topics

Select from the 10 core Early Childhood Education program topics to create a customized assessment to meet the needs of your program.

#### Customization

Our flexible design helps you create assessments that best align with your Early Childhood Education program as well as specializations.

#### Support

Unmatched client support to assist with your test administration and report interpretation every step of the way. We also provide LTI integration so that the assessment can be administered through a course shell within your school's LMS.

#### Comprehensive Reporting

You receive immediate access to all institutional and individual assessment scores/results. This intuitive and flexible reporting system generates a wide range of comparative reports across time, cohorts, to name a few, for sophisticated in-depth analysis.
