Objectively Assess Soft Skills Online

Success at work and in life is largely dependent on soft skill proficiency. Soft skills are the hardest skills to teach and assess. We have made it simpler. Peregrine Global Services provides you with a 360° evaluation that uses the perspectives of peers, mentors, and faculty to measure the relative soft skills of your learners.

Designed for You

With EvaluSkills' user interface, you have an effortless way to manage the assessment process from customization to data and report analysis. EvaluSkills is meant to help you demonstrate quality to both programmatic and regional accreditors.

Objective Measurement

All skills are associated with a close-ended, 5-point Likert scale rubric. The rubrics includes statements, behaviors, and scaling to ensure the most objective measurement of relative soft skills.

Customizable

You have access to our team's expertise and a rich database of nearly 300 skills and corresponding rubrics - ensuring you can measure your intended learning outcomes and competencies. Also, you can further customize by writing your own skills and rubrics.

Data & Reports

You are able to generate reports at the participant and group level. The robust reports allow you to foster student development, inform areas for program improvement, and track growth and change over time.

PEREGRINE
GLOBAL SERVICES

Using an Online 360° Approach

1
Create your administrator account where you can easily manage students, set deadlines, view assessment progress, and generate reports.

2
Select one of the available instrument templates or create your own from nearly 300 soft skill assessment items.

3
Upload or enter the participants (students) to be evaluated.

4
Assign evaluators or have participants select their own. We recommend 5-8 evaluators.

5
An invitation to evaluate participants is sent by email to the evaluators. Evaluators use 5-point Likert scale rubrics to evaluate learners.

6
Upon assessment completion, participants will generate their individualized report and an action plan to guide future soft skill development.

7
Generate reports to evaluate your learning outcomes, inform program improvement, and help students develop their skills.

Sample Skills & Rubric

With our database of nearly 300 distinct soft skills, you can create specific assessment instruments, typically including 5-20 soft skills. Each soft skill includes a standardized rubric using a 5-point Likert-type scale, which improves the objectivity of the assessment. Schools can have multiple assessments for different student groups.

5 WELL ABOVE EXPECTATIONS	4 ABOVE EXPECTATIONS	3 MEETS EXPECTATIONS	2 BELOW EXPECTATIONS	1 WELL BELOW EXPECTATIONS
<p>Questions all information presented and verifies assumptions, disregards long-held beliefs and examines new facts, and considers several possible solutions before deciding.</p> <p>Level of proficiency with this competency is much higher than expected and very much higher than average.</p>	<p>Able to gather information and break down a situation into known facts and dispassionately weighs evidence to come up with a solution.</p> <p>Level of proficiency with this competency is higher than expected and clearly above average.</p>	<p>When presented with new information, can identify important factors, see relationships, and take a logical course of action.</p> <p>Level of proficiency with this competency is at an expected or average level.</p>	<p>Does not easily assimilate new information into previous plans; needs explanation for how new circumstances affect decision-making.</p> <p>Level of proficiency with this competency is below expectations and requires some remediation, training and/or education to obtain an expected or average level of proficiency.</p>	<p>Bases decision on preconceived notions or beliefs, reacts emotionally, disregards information not aligned with personal ideas.</p> <p>Level of proficiency with this competency is very much below expectations and requires a significant amount of remediation, training and/or education to obtain an expected or average level of proficiency.</p>
