Designed for You

Our assortment of online and self-guided modules uses best practices in curriculum design.

Learners will enjoy a mix of multimedia content and activities that keep them engaged.

Our solutions are easy to adopt with flexible purchase options, integrations into your LMS, and the ability to create a school branded microsite.

Real Solutions

Modules can be used to enhance courses, develop the foundational business knowledge, ensure learners know how to write well, and close the gap between theory and application.

Innovative Tech

Modules come in the form of simulations, micro-case studies, and dynamic course content comprising of informative text, video, sound clips, activities, and quizzes. We will help you develop an instructional solution that meets your program's needs.

Competency-Based

You can choose from a variety of modules that support 8 essential workplace competencies and a wide range of disciplines and industries. The fully online platform allows learners to reach their full potential any time and from anywhere.
