MARKETING

Overview

Marketing involves the design of products and services that customers will value and pricing them appropriately, making them available for purchase at easy points of access in the marketplace, and advertising the benefits. Great marketing is based on sound, logical economic and psychological laws of human and organizational behavior. Scientific and rigorous ways to think about marketing issues are what make companies successful. Marketing can make customers happier and companies more profitable. This module describes core concepts such as the marketing framework, segmentation, target marketing, positioning, and marketing effectiveness.

This module is intended as a review of the key concepts, fundamentals, and foundations of the discipline.

Learners

This module is designed for learners who require an overview of the discipline. The module is commonly used in an academic leveling (transition to graduate education) or business review (capstone) course or program.

The module may qualify for Continuing Education Units (CEU) for professional certifications depending on the professional association.
